

Prashik Kamble

DevOps Engineer

DevOps Engineer with 4.5 years of experience in automating infrastructure, optimizing CI/CD pipelines, and deploying scalable applications across cloud platforms. Proficient in AWS, AzureDevOps, Kubernetes, Docker, Terraform, and Jenkins, with expertise in Infrastructure as Code (IaC), container orchestration, and cloud security. Experienced in enhancing system performance, ensuring high availability, and implementing DevOps best practices. Collaborates effectively with development teams to streamline deployments and improve operational efficiency.

WORK EXPERIENCE

DevOps Engineer

Crisil Limited (via RLabs → FirstMeridian Global Services)

02/2025 - Present

- Managed AWS infrastructure for **80+ EC2 instances** across Dev, QA, and UAT using Terraform.
- Built **Jenkins CI/CD pipelines** for Java and Angular applications, reducing deployment errors and manual effort.
- Led Kubernetes platform supporting 100+ microservices**, handling deployment, scaling, and troubleshooting.
- Implemented monitoring with **Prometheus** and **Grafana**, improving incident detection and response.
- Integrated **SonarCloud**, **Veracode**, and **Twistlock** into pipelines for code and container security scanning.
- Built **Azure DevOps** pipelines for React, Java, and Python workloads.
- Optimized resource utilization and improved deployment stability across environments.

DevOps Engineer

Airchip Communications Pvt Ltd, Mumbai

01/2024 - 02/2025

- Designed and maintained **CI/CD pipelines** using **Jenkins** and **GitHub Actions** for **Python** and **Node.js** applications, enabling faster and more reliable releases.
- Deployed and managed containerized applications on **AWS EKS** Kubernetes clusters, handling rolling deployments and scaling.
- Implemented **AWS Cognito** OTP-based authentication, improving application security and user verification.
- Supported multi-client production environments across **AWS** and **AKS**, including platforms in UK, India, and Qatar.

DevOps Engineer

Vionsys IT solutions India Pvt Ltd, Pune

09/2021 - 01/2024

- Built automated **CI/CD pipelines** using **Jenkins** and **Maven** for enterprise Java applications.
- Managed deployments on **Tomcat** and **Nginx** servers, ensuring high availability and smooth production releases.
- Implemented monitoring and alerting using **AWS CloudWatch**, **Prometheus**, and **Grafana** for proactive issue detection.
- Assisted in cloud infrastructure setup and configuration on **AWS EC2** and **IAM** for multiple environments.

EDUCATION

Bachelors in Engineering

Dr. Babasaheb Ambedkar Marathwada University, Aurangabad

08/2019 - 09/2022

SKILLS

AWS DevOps

NGINX

IaC - Terraform

Linux

Docker & Kubernetes

Ansible

Git/Github

Grafana

Shell Script

Jenkins

Window & Ubuntu

Prometheus

RDS

Azure DevOps

Splunk

Terraform

PROJECTS

CCLM (02/2025 - Present)

- Designed, implemented, and maintained CI/CD pipelines** for **Java, Python, and React** applications, integrating **code quality checks, security scanning, and vulnerability management** to ensure reliable and secure deployments.
- Deployed and managed containerized microservices** using **Docker and Kubernetes**, supporting **100+ microservices**, while **automating infrastructure provisioning with Terraform** and implementing **monitoring and alerting** via **Prometheus and Grafana**.

ICON (02/2025 - Present)

- ICON (Integrated Credit Operations Network)** is a **scalable enterprise platform** that digitizes and automates **credit rating and analytical workflows**, enabling **end-to-end data ingestion, analysis, and reporting** for multiple CRISIL rating products.
- Built on a **microservices-based, cloud-native architecture**, the platform emphasizes **high availability, security, CI/CD automation, containerization, and monitoring**, ensuring **reliable performance** for business-critical applications used by analysts and stakeholders.

Oomero, UK (01/2024 - 01/2025)

- Planned a **hybrid compliance service** for **Identity Verification (IDV), KYC, KYB, and AML solutions** via API/SaaS.
- Automated **client onboarding & monitoring** for various industries, reducing compliance costs.

Frruit, India (01/2024 - 01/2025)

- Leveraged **AI-driven tools** and **real-time market data analysis** to optimize market insights and decision-making.
- Integrated **real-time and historical stock market data** to identify correlations between financial events and stock price movements.

Xpendless, Qatar (01/2024 - 07/2024)

- Created a **corporate spend management platform** for a Qatari fintech startup.
- Addressed challenges such as **traditional cash management, inefficient workflows, and manual processes**.
- Transformed the application on **Azure Kubernetes Service (AKS)**, ensuring **scalability and reliability**.

United Healthcare, USA (09/2021 - 01/2024)

- Worked with a **US-based healthcare & insurance firm** specializing in **health diagnostics & life sciences**.
- Automated **infrastructure provisioning & configuration management**.
- Integrated **CI/CD pipelines & monitoring solutions** for healthcare applications.

CERTIFICATION

AWS Certified Solutions Architect Associate (07/2025 - 07/2028)
